

4th International Controversies in Rectal Cancer Conference

Wednesday 14th & Thursday 15th September 2016

Colchester, UK

A star-studded international faculty from Europe and the UK will address the current issues in early and late rectal cancer management, with debates on outcome data, Trans-anal TME and high-risk rectal cancer.

We are pleased to announce that Dr Steve Wexner from The Cleveland Clinic, Florida, USA will be part of the faculty and will deliver Keynote Lectures on Rare Tumours: 'What do we need to know?' and 'The current reality of Robotic Rectal Surgery'.

**Early bird rates available until 1 August.
